# Christopher Thomas

Electrical Engineer

Pune, Maharashtra, India

## Summary

Working to become a Scientist. Main focus being Computer Vision, Machine Learning and Robotics.

My motto is that if even one person benefits from a creation of mine, my life is a success.

Ever since I can remember I have always challenged myself to beat my past success. That makes me always want to aim higher and dig deeper.

I am not one who promotes myself because I want to be able to Impress people with what I am capable of, by showing it to them.

---

## Experience

### ACD

Lead Electrical Engineer

September 2020 - Present (3 years)

Garland, Texas, United States
