Yadukrishnan U

Model-Based Development Engineer | Entry-Level C and Python Developer | Skilled in MATLAB, Simulink | AUTOSAR | TATA EIXSI India

Summary

As a Model-Based Development Engineer at Tata Elxsi, I specialize in using MATLAB and Simulink to develop and design systems for variety of applications. With expertise in Autosar and proficiency in python and C, I bring a unique blend of technical skills to the table. Additionally, I have a strong interest in the electrical field and am eager to explore new opportunities that allow me to apply my expertise in both areas
